

# Tell Time · homework

Same clock. Two names. English uses both.

World English Intro, Unit 5, páginas 60 e 61. O mesmo relógio tem duas leituras: uma conta os minutos que **já passaram**, a outra conta os que **faltam**. Cada exercício avisa qual das duas ele pede.

NAME: \_\_\_\_\_

DATE: \_\_\_\_ / \_\_\_\_

### Reading the clock

As duas leituras, lado a lado

| CLOCK                      | LIKE A DIGITAL CLOCK | FROM THE HOUR       |
|----------------------------|----------------------|---------------------|
| <b>6:00</b><br>hora cheia  | six o'clock          | six o'clock         |
| <b>6:15</b><br>e quinze    | six fifteen          | a quarter after six |
| <b>6:30</b><br>e meia      | six thirty           | half past six       |
| <b>5:45</b><br>quinze para | five forty-five      | a quarter to six    |
| <b>7:05</b><br>e cinco     | seven oh five        | five after seven    |

**Before half past**, count what already passed: *after*. **After half past**, count what is missing: *to*, and the hour goes up one.

:15 → a quarter after · :30 → half past · :45 → a quarter to · :00 → o'clock

Minutos abaixo de dez levam **oh**: *seven oh five*. E o americano diz *a quarter after*, mas *half past*.
