Congratulations, Toshie.

おめでとうございます！

Well done! Verb Patterns, the not, Markers and Reading, all in one test, and you did great.

Seven of the twelve sections are perfect. In the whole "not" block, you lost one point out of sixteen. In Markers, you scored 31 out of 35. That is real work, and it shows.

Sometimes learning feels slow when you are inside it. A page like this shows what is hard to see from there: you are moving forward. Be proud of this result. I am.

Leo よく頑張りました！ *Keep going.*

WHAT COMES NEXT

Going very well

Excellent work. You know the three families and where the *not* goes. You find mistakes and fix them (8 out of 8, twice). You use markers to write whole sentences (8 out of 8).

Where to grow

You are close. Building your own sentences from a Portuguese sentence or from two sentences (sections 7 and 10), and the reading text. All three get better with more writing and more reading, a little every day.

YOUR NEXT STEP: WRITE A LITTLE EVERY DAY

1. Write three sentences about your day. Only English. No dictionary at first.
2. Use one verb pattern or one marker each day, for example "My boss asked me to..." or "Although I was tired...".
3. Bring your sentences to class. I do not need perfect sentences. I need your sentences.

毎日少しずつ、続けましょう。 I am also preparing a daily journal for you, with a short theme for each day.
