

Two families.

Every yes/no question in English belongs to one of two families.

Em português, a pergunta é só a voz subindo. Em inglês, as palavras se mexem: ou o auxiliar **inverte**, ou um auxiliar **entra**.

Is there an auxiliary?

Tem auxiliar? Essa é a única pergunta.

STATEMENT · frase

QUESTION · pergunta

SHORT ANSWER · resposta curta

YES · tem

A Flip it inverte

am · is · are · was · were

Nothing else changes.

Nem o -ing sai do lugar.

→

Is it cold?

👍 Yes, it **is**.

👎 No, it **isn't**.

They were working.

→

Were they working?

👍 Yes, they **were**.

👎 No, they **weren't**.

NO · não tem

B Add it adiciona

Present · I, you, we, they **do**

Present · he, she, it **does**

Past · everyone **did**

The verb goes back to its base form.

O auxiliar leva o tempo e o -s.

He plays soccer.

Does he play soccer?

👍 Yes, he **does**.

👎 No, he **doesn't**.

You liked the hotel.

→

Did you like the hotel?

👍 Yes, I **did**.

👎 No, I **didn't**.

The answer repeats the auxiliary.

A resposta curta usa o mesmo auxiliar da pergunta.

Never ~~Yes, he plays~~.

A name becomes a pronoun.

Is Anna ready? → Yes, **she** is. O nome vira pronome na resposta.

Yes doesn't contract.

No afirmativo não contrai: Yes, it is. Never ~~Yes, it's~~.

No negativo contrai normal.
