1:30 e meia	one thirty	half past one
3:45 quinze para	three forty-five	a quarter to four
10:05 e cinco	ten oh five	five after ten

Before half past, count what already passed: *after*. **After half past**, count what is missing: *to*, and the hour goes up one. :15 → a quarter after · :30 → half past · :45 → a quarter to · :00 → o'clock. Abaixo de dez minutos entra o **oh**: *ten oh five*.
