Is there an auxiliary?

Tem auxiliar? Essa pergunta decide tudo

To make a sentence negative, look for an auxiliary first: will, can, could, should, would, have, has, am, is, are, was, were. If there is one, the "not" joins it. If there isn't, add don't, doesn't or didn't.

É a mesma pergunta das Famílias A e B, das perguntas. O verbo do pattern (let, make, ask, want) não tem regra nova: ele só obedece o auxiliar que vem antes.

1 Is there an auxiliary?

Olhe o primeiro verbo depois do sujeito: é will, can, should, would, have, has, am, is, are, was, were?

No

FAMILY B

Add don't · doesn't · didn't.

O verbo volta pra base: doesn't lets let, didn't asked ask.

Yes

FAMILY A

The "not" joins it: won't · can't · shouldn't · hasn't · isn't.

Nada de do, e nada entra no meio.

2 The auxiliary chooses the next form.

will, can, should, would: forma base. have, has: participio. am, is, are, was, were: -ing ou going to.

3 After the person, nothing changes.

O resto é da família: to + verbo na Família 1, verbo sozinho na Família 2.
