

NAME

DATE

My family, my generations

Everybody in your house was your age once. Your job today is to find out what that was like, and to say it in English.

1 The timeline

Write the years next to each generation. Then write who in your family belongs there, with their age.

GENERATION

BORN

PEOPLE IN MY FAMILY

Generation Alpha

Generation Z

Millennials

Generation X

Baby Boomers

Start with yourself.

2 Six chunks

These words travel together. Learn them whole. Circle the three you can use about your own family.

digital native

global identity

virtual world

older generations

traditional culture

digital communication

REAL TALK

Chunk é bloco. **Digital native** não se traduz palavra por palavra e não se usa pela metade: ou vem inteiro, ou não vem. Guarde o bloco, não a palavra.

The interview

Ask three people at home, and your teacher, the same question. Then bring the answers back to class.

3 My question

Write one question about how people keep in touch. Ask everybody the same one.

How do you usually keep in touch with your friends or family?

4 The answers

Write what each person said. Short notes are fine, English only.

PERSON	GENERATION	WHAT THEY SAID
Me		

My teacher

5 Prove it

Saying it is not enough. Finish the sentence, then give the example that proves it.

- Older generations in my family _____.
For example, _____.
- I am a digital native, but _____.
For instance, _____.
- I spend time in a virtual world,
such as _____.
