

UNIT 11 History

Scott's Hut, Ross Island, Antarctica

UNIT GOALS

- 11a • ask questions with verbs + prepositions
 - say what someone said with reported speech
- 11b • talk about different types of communication
 - use reporting verbs, and listen for key points
- 11c • read about historical objects, and evaluate emotion words in a text
- 11d • give a short presentation about a historical place
- 11e • write a biography, and punctuate direct speech
- 11f • interpret signs and symbols, and watch a video about space history

1 The hut in the photo is about one hundred years old. Where is it? What do you think makes it special? **Students' own answers.**

2 **11.1** Listen to a historian talking about the hut and check your ideas from Exercise 1. Then answer the questions.

- 1 What are some objects inside the hut?
- 2 Why is it important to look after the hut?
- 3 The historian says "the hut has become a time capsule." What do you think this means?

3 Work in groups. Plan your own time capsule. Which five objects will be most useful for future historians? Use these examples or your own ideas. **Students' own answers.**

a clock	a copy of today's newspaper
drawings and diaries	a memory stick with music and movies
a menu from a restaurant	money (coins and notes)
a popular novel	a can of food

4 Present the list of items in your time capsule to the class and explain the reasons for your choices. **Students' own answers.**

Background information

Here are two famous American time capsules:

- A box containing newspapers, official records, coins, a silver plate, and a copper medal was buried in Boston in 1795 and opened in 2015.
- Filled with photographs and letters from residents describing life in Detroit in 1900, the Detroit Century Box was formally opened in 2000.

4

- Ask the groups to present their lists.
- **Extra step** Ask students to agree on a class list, drawing on the best ideas from each presentation.

Answers

Students' own answers.

3

- **Optional step** Start by asking students if they have ever buried a time capsule. The custom of burying or hiding time capsules for people to find in the future is well-established (see **Background information**).
- Organize students into groups of three or four. Read through the list of objects in the box. Set a time limit of five to ten minutes (depending on how long you have in your lesson), and tell students that they should all agree on the list within their group.

- **Exam tip** This exercise provides exam practice for Cambridge B1 Preliminary, Speaking Part 3 (Discussion).
- Monitor, helping and prompting if necessary.

Answers

Students' own answers.

spark You can also use the Word Lists in the Teacher Resources in Spark to help your students build their English vocabulary.

AT A GLANCE

- **reading** a timeline
- **wordbuilding** verb + preposition
- **grammar** reported speech
- **speaking** talking about games

- **Lead-in** Students draw a timeline for five important days in their lives. They can make up the details if they want.
- Put students in pairs and ask them to explain their timelines to each other.

Reading

1

- Students talk in pairs.
- Elicit ideas in feedback but don't confirm the answers at this stage. They are revealed in Exercise 2.

Example answers

- 1 *Pong* came out in 1972, so in the seventies.
 - 2 The game is in black and white, it is two-dimensional, and it uses simple line graphics. The controller is connected to the console by a wire.
- **Optional step** Ask students to think of all of the visual differences there are between the images from games over the years. Ask: *How have the graphics of games changed since you first played a game until now? What is the relationship between better images and different types of games?*

Background information

The photo shows a mother and son playing *Pong*, a game that was released for computer arcades in 1972, and for use in the home in 1975. It was one of the earliest video games—a simple game based on ping-pong (table tennis). The lines on the screen are “bats” and the dot is the ping pong ball.

2 11.2

- Students work individually. Let students compare answers in

Historical timelines

Reading

- 1 Work in pairs. Look at the photo of the woman and the boy in the video gaming timeline. Discuss the questions.

- 1 When do you think the photo was taken?
- 2 What differences are there between this video game and modern video games?

The video game in the photo is black and white ...

- 2 Read the timeline. Discuss the questions in pairs.

- 1 Which video games does it mention?
- 2 Do you know about any of the games?
- 3 Do people still play these games today?

- 3 Read the timeline again. Match these final sentences (a–f) with the paragraphs in the timeline (1–6).

- | | |
|--|---|
| a It meant you could get physical exercise in your living room. | 4 |
| b It was a game you played against another person for points. | 1 |
| c This number broke all previous records in the gaming industry. | 5 |
| d Gamers played it for hours, arranging its falling bricks in neat rows. | 3 |
| e Gamers competed against each other online. | 6 |
| f People of all ages said they loved the aliens. | 2 |

Wordbuilding verb + preposition

Many verbs are often used with prepositions. When you learn a new verb, try to learn the different prepositions you can use with it, e.g., *play with (someone)*, *play against (someone)*, *play for (a team)*, *play on (a team)*.

- 4 Complete the questions with these prepositions.

about for on with

- 1 Which video games are most people talking about these days?
- 2 How much do you normally pay for a video game on your phone?
- 3 How much do you spend on video games every month?
- 4 Some people think video games are bad for you. Do you agree with them?

- 5 Work in pairs. Ask and answer the questions in Exercise 4.

Grammar reported speech

We use reported speech to report what someone said in the past.

- 1 *People said that they **had never seen** a home video game like it.*
- 2 *People of all ages said they **loved** the aliens.*
- 3 *Nintendo said they **were working** on a new type of gaming device.*
- 4 *They said they **would produce** games for the whole family.*

Note: After the reporting verb *said*, you can use *that*, but you don't have to.

For more information and practice, see page 176.

A TIMELINE OF VIDEO GAMING 11.2

pairs before checking with the class.

- **Optional step** The reading text is recorded. Play the audio and ask students to read and listen.

Answers

- 1 *Pong, Space Invaders, Tetris, Angry Birds*
- 2 Students' own answers.
- 3 All of these games have not disappeared completely and can still be played online.

3

- Students work individually. Let them compare their answers in

pairs before checking with the class.

- **Exam tip** This exercise provides exam practice for IELTS, Reading Part 6 (Matching features).

Answers

See answers on Student's Book page.

spark Additional reading texts and comprehension practice are available in the Online Practice in Spark. You can also find supplementary reading materials and practice in the Teacher Resources in Spark.

- 6 Look at the grammar box. Match the reported speech (1–4) and direct speech (a–d) sentences.
- 2 a People of all ages said, "We love the aliens."
3 b Nintendo said, "We are working on a new type of gaming device."
4 c Nintendo said, "We will produce games for the whole family."
1 d People said, "We've never seen anything like it."

- 7 Look at the direct speech sentences in Exercise 6 and the corresponding reported speech sentences from the Grammar box. Complete the chart.

	Direct speech	Reported speech
a	present simple	1 <u>past simple</u>
b	2 <u>present continuous</u>	past continuous
c	will	3 <u>would</u>
d	4 <u>present perfect</u>	past perfect

- 8 Read the first sentence and complete the second sentence with the correct verb form.

- 1 The boy said, "I love playing Minecraft."
The boy said that he loved playing Minecraft.
- 2 When I phoned, Mom said the children were playing tennis on her old Wii.
When I phoned, Mom said, "The children are playing tennis on my old Wii."
- 3 The CEO said, "We are planning a new version of the game."
The CEO said they were planning a new version of the game.
- 4 Their text said they had gone to the theater.
Their text said, "We have gone to the theater."

- 5 Luciano said he would play against us later.
Luciano said, "I will play against you later."
- 6 One scientist said, "VR headsets will change people's brains."
One scientist said that VR headsets would change people's brains.

- 9 11.3 Listen to a short conversation between Jack and Sonia. Write down what they say.

Jack: 1 I need the TV for my game.

Sonia: 2 I'm watching a really interesting program.

Jack: 3 But I want to get to the next level!

Sonia: 4 You're always using the TV.

Jack: 5 Fine. I'll play it later.

- 10 Rewrite the conversation from Exercise 9 as reported speech.

Jack said that he ...

Speaking

- 11 Work in pairs. Ask and answer the questions. Write your partner's answers.

- 1 Do you play any video games or board games?
2 What sort of games do your friends play?
3 Have you ever played any of the video games in the timeline?
4 How do you think video games will change in the future?

- 12 Change partners. Report what your previous partner said.

Aniko said that she didn't play video games, but that she often played chess with her club at school.

with the class (see **Vocabulary notes**).

Answers

See answers on Student's Book page.

Vocabulary notes

Students often confuse phrasal verbs with verb + preposition.

In a phrasal verb, the particle is an adverb (i.e., it describes the verb). A phrasal verb can be transitive (i.e., it takes an object) or intransitive (i.e., it takes no object). If it is transitive, it may also be separable. Some phrasal verbs have non-literal meanings.

In a verb + preposition, the preposition introduces the noun or phrase that follows (it doesn't describe the verb), and it doesn't change the meaning of the verb. It isn't separable.

Compare these phrasal verbs ...

Joe and Jill broke up. / Dan broke the fight up.

... with these verbs + prepositions:

Ben talked to his brother. / They played on the internet.

5

- Students work in pairs. Model the activity by asking the first question and nominating three or four students to answer.
- In feedback, ask students to say what they found out about their partner.

Answers

Students' own answers.

Grammar reported speech

6

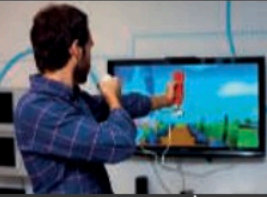

- Students work in pairs. Refer them to the grammar box. Elicit the first answer as an example.
- Check answers with the class.

Answers

7

- Students work individually. Read the instructions with the class and do the first item as an example.
- Let students compare answers in pairs before checking with the class (see **Grammar notes**).

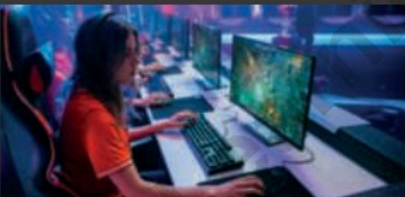

2000

4 At the beginning of the 21st century, Nintendo said they were working on a new type of gaming device and that they would produce games for the whole family. The device was called the Wii™ and—unlike other video games—its games were active.

5 With more people owning mobile phones and online devices, you could now play games anytime, anywhere. And the most successful game in 2010 was *Angry Birds*. In twelve months, it was downloaded thirty-six million times.

2010

2020

6 By 2020, video gaming had become a multibillion-dollar industry with a wide variety of mobile, PC, and console games. Online multiplayer games also brought together thousands of people in competitions.

my life ▶ OPINIONS ABOUT GAMES ▶ A PERSONAL MESSAGE ▶ LOCAL HISTORY ▶ A HISTORICAL PLACE ▶ A BIOGRAPHY

131

Background information

Japanese company Nintendo introduced Game Boy™ in 1989 and Wii™ in 2006. They both involve using handheld consoles to play different games. Microsoft's Xbox™ and Sony's PlayStation™ are rivals.

Space Invaders was a video arcade game released in 1978 and originally manufactured and sold by Taito in Japan. It involves shooting down alien icons as they march back and forth across a screen.

Tetris, released in the 1980s, is a tile-matching puzzle video game designed by Russian game designer Alexey Pajitnov.

Angry Birds was initially designed for touchscreen phones. It's a puzzle game featuring stylized wingless birds. It was developed by a Finnish company, Rovio Entertainment, and was first distributed in

2009. Later versions were developed for computers and game consoles.

Multiplayer video games allow players to play together at the same time in the same game environment, either in the same physical space or in different places via the internet.

Aniko said that she didn't play video games, but that she often played chess with her club at school.

A TIMELINE OF VIDEO GAMING

11.2

1 Video games appeared in the 50s and 60s, but the first really successful game was Pong, which came out in 1972. People said that they had never seen a home video game like it before.

2 When people remember playing video games in the late 70s and early 80s, they often think of *Space Invaders*. Everyone was talking about it at the time.

3 Much smaller video game devices became available in the 90s. For example, you could take the Game Boy™ with you anywhere. It had lots of different games, including *Tetris*, which was the most popular.

4 At the beginning of the 21st century, Nintendo said they were working on a new type of gaming device and that they would produce games for the whole family. The device was called the Wii™ and—unlike other video games—its games were active.

5 With more people owning mobile phones and online devices, you could now play games anytime, anywhere. And the most successful game in 2010 was *Angry Birds*. In twelve months, it was downloaded thirty-six million times.

6 By 2020, video gaming had become a multibillion-dollar industry with a wide variety of mobile, PC, and console games. Online multiplayer games also brought together thousands of people in competitions.

- **Extra support** If your students struggle with grammar rules and the names of tenses, do this task together as a whole class.
- Refer students to page 176 of the Student's Book for more information and practice.

Answers

See answers on large Student's Book page.

GRAMMAR NOTES

At this level, keep reported speech simple for students by getting them to apply and practice the "one tense back" rule. So, present to past, and modal verbs like *can* to *could*, or *will* to *would*.

Students will also have to manipulate pronouns when reporting speech, so *I* and *you* (singular) become *he* or *she*, while *we* and *you* (plural) become *they*.

8

- Students work in pairs. Elicit the first answer as an example.

- Monitor, prompting and helping if necessary.
- Check answers with the class, referring back to the table in Exercise 7.

Answers

See answers on large Student's Book page.

Notes on answers

1 *love* (present) → *loved* (past)
Note that *I* changes to *he*.

2 *were playing* (past) → *are playing* (present)

3 *are planning* (present) → *were planning* (past)

4 *had gone* (past perfect) → *have gone* (present perfect)

5 *would play* → *will play*

6 *will change* → *would change*

9 11.3

- Students work individually. Explain that they need to write down the exact words that Jack and Sonia say.

- Play the audio.
- **Extra support** You may need to play the audio two or three times, or play and pause between each line, so that students have time to write.
- **Optional step** Let students check their answers by looking at the audio script on page 188 of the Student's Book.

Answers

See answers on large Student's Book page.

10

- Students work in pairs. Monitor, helping if necessary.
- Check answers with the class.

Answers

(answers may vary slightly)

- Jack said that he needed the TV for his game.
- Sonia said that she was watching a really interesting program.

3 Jack said that he wanted to get to the next level.

4 Sonia said that Jack was always using the TV.

5 Jack said that he'd play it later.

spark Assign students the grammar activities in the Online Practice to help them consolidate their understanding and get practice of using this language.

Speaking my life

11

- **Extra support** Start by checking *board game* (see **Vocabulary notes**).
- Ask students to work with a new partner. Check that students note down their partner's answers carefully. They will need them for the next Exercise.
- **Exam tip** This exercise provides exam practice for IELTS, Speaking Part 1 and Cambridge B1 Preliminary, Speaking Part 1 (Interview).

Answers

Students' own answers.

Vocabulary notes

board game = an indoor game, played on a board, often with pieces that are moved around it

12

- Organize the class into new pairs. Ask students to use reported speech when they report their previous partner's answers.
- Monitor, making notes of any common errors students make with reported speech.
- In feedback, ask a few students to tell the class what information was reported to them. Then, on the board, write short sentences with the errors you heard. Ask pairs to work together to correct them.

Answers

Students' own answers.

Extra activity

Play *Whispers*. Organize the class into groups of five and ask each group to sit in a circle. Walk around the class and whisper the first sentence in the list below into the ear of one student in each group. Tell those students that they must whisper the reported version of the sentence into the ear of the student to their right. That student must then whisper the sentence into the ear of the next student to the right, and so on.

For example, you whisper: *I have a new bike*. The student whispers: *The teacher said he/she has a new bike*. Once the sentence has been whispered into all five ears in each group, the last student says what they heard. Find out if it is a correct sentence. Continue the game by whispering the next sentence into the ear of a different student.

A possible list (or make up your own sentences):

I have a new bike.

I have never played baseball.

There will be a test on Tuesday.

The school is going to be closed on Friday.

I'm enjoying the lesson.

spark For additional speaking practice, use the Communicative Activities in the Teacher Resources in Spark.
