

How it works

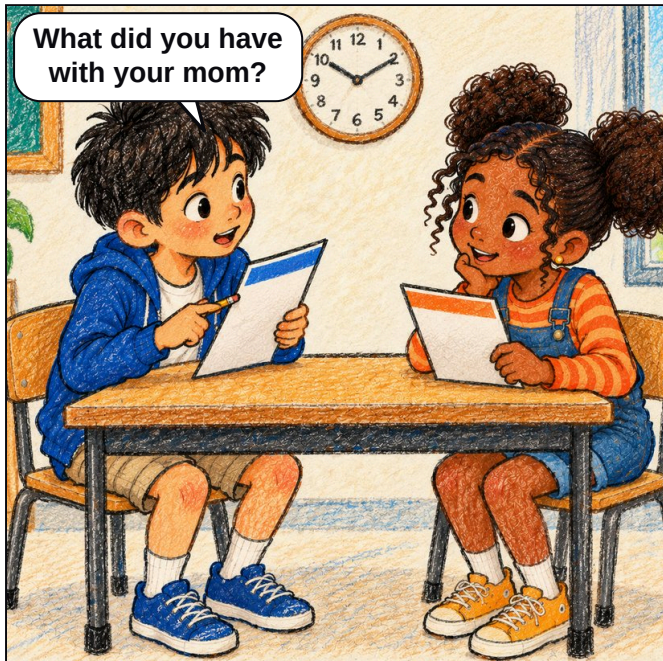

Kai and Maya have two cards. Each card has two different stories. Each one has the answers the other one needs. The only way to get them is to ask.

1 Two cards. Two different stories.

2 ⌚ One minute: each one reads their own story, in silence.

3 Kai asks about Maya's story.

4 Maya finds the answer in her own story. She doesn't show it.

5 Kai writes it down. Now Maya asks.

6 Kai finds the answer in his own story. Maya writes it down.

7 The last question is on both cards. Neither can answer it alone.

8 Together, they write the answer.
