Critério de Colocação de Turma

Parte A (Grammar/Vocab, 24 pontos)

Some os acertos por faixa de nível. Se o aluno acerta consistentemente até certo ponto mas erra a maioria depois, a colocação sugerida fica próxima a essa fronteira.

Parte B (Reading)

Serve como confirmação — recepção pode estar à frente da produção, o que é comum e não deve baixar a colocação sozinho.

Parte C (Sentence Building)

O teste mais revelador de nível real de produção — avalie se a estrutura foi usada corretamente e se soa natural.

Parte D (Writing)

Critério de desempate entre dois níveis adjacentes. Observe variedade de tempos verbais, conectores e precisão geral.

Regra geral

A colocação final deve refletir o nível mais alto em que o aluno ainda demonstra *controle* — não o nível mais alto em que ele "tenta" a estrutura.
